Introduction

BirdLovers is an organization that deals the search of species all over the world. Which is why this website allows bird fans to post and share picture of birds they have taken. It serves for multiple purposes, to appreciate the beauty of birds and to discover new types that haven't ever been found.

This manual provides all the information needed to fully manage the services on the website. It specifies all the steps from registering yourself, searching bird species, registering found species and much more. Everything is taught in the simplest manner so that anyone of any age can join this organization and will find the website straight forward manageable.

Home Page

As soon as the page is entered you will be received by the home page which looks like this.
